Chronic Consciousness

What's the Story of Chiron in YOUR Life?

**“Our wounds become the
receptacle of wisdom, the hurtful
grit in our oyster-like softness
eventually becomes a pearl.”**

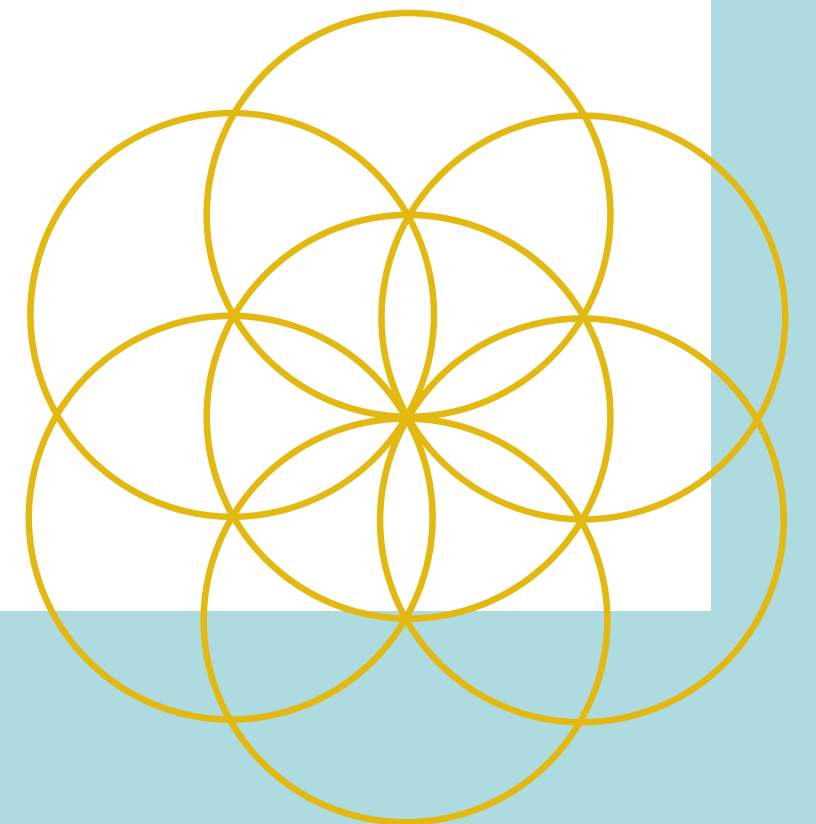

Chiron and the Healing Journey, Melanie Reinhart

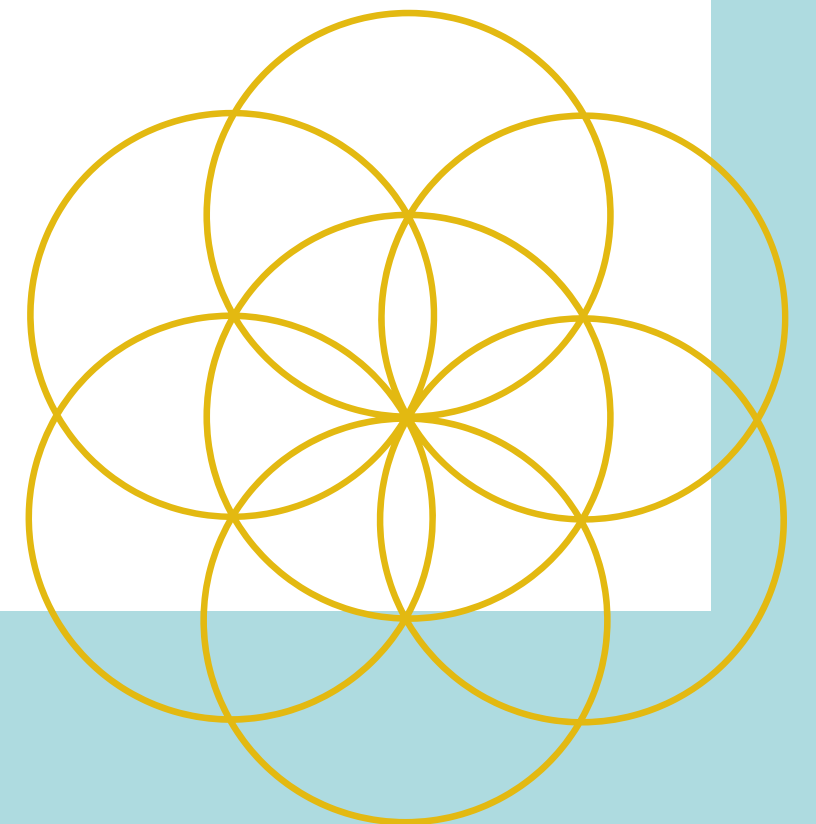

**“Your pain is the breaking of the
shell that encloses your
understanding.”**

Kahlil Gibran

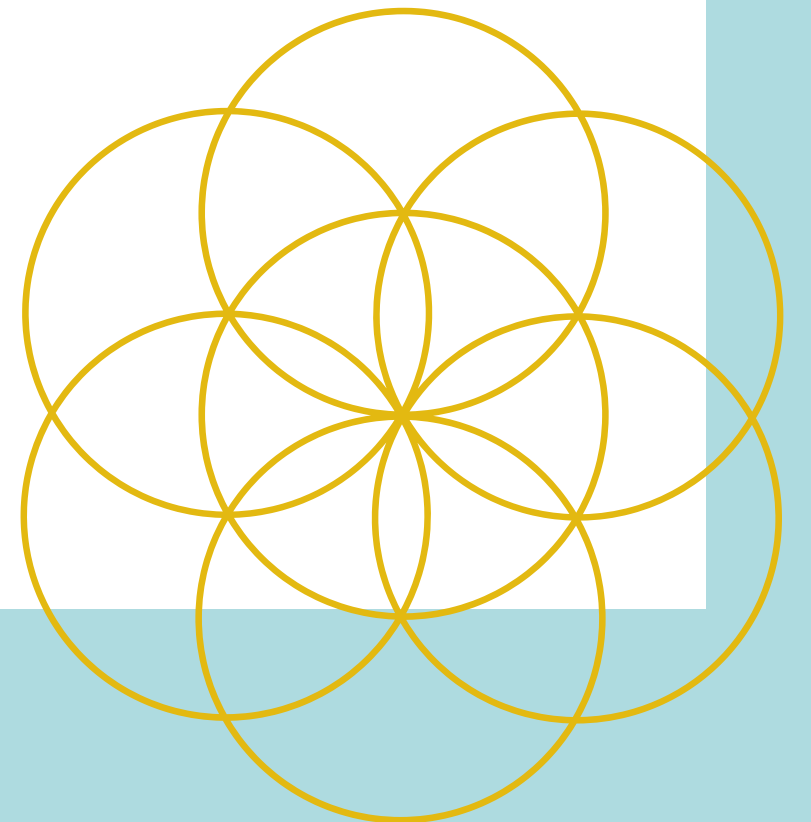

**“Much of your pain is self-chosen.
It is the bitter potion by which the
physician within you
heals your sick self.
Therefore trust the physician, and
drink his remedy
in silence and tranquillity:**

**For his hand, though heavy and
hard,
is guided by the tender hand
of the Unseen."**

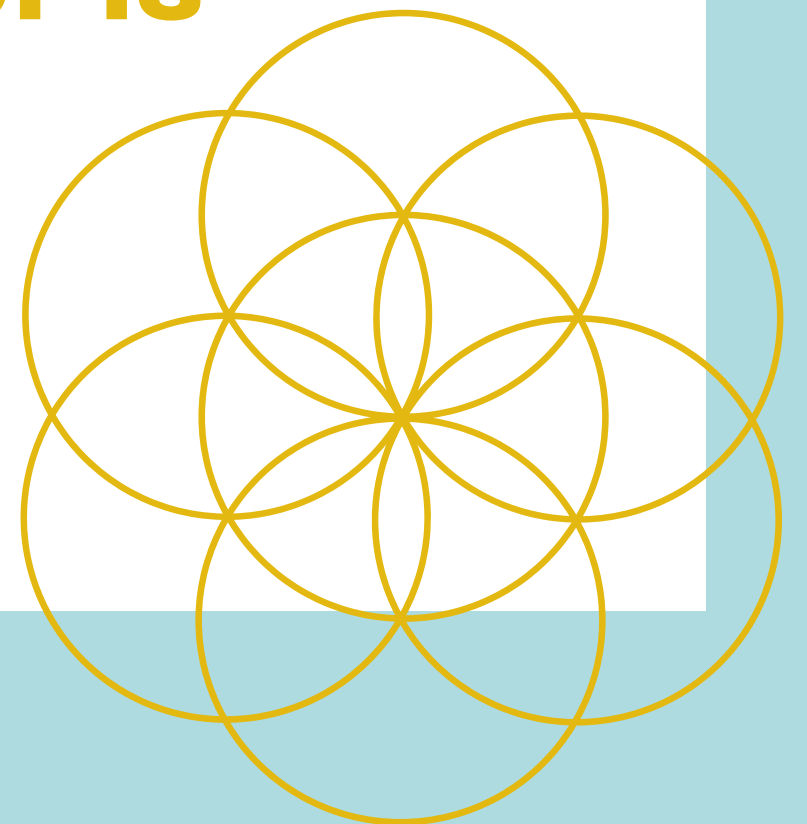

Kahlil Gibran

“in seeking for the meaning of your suffering you seek for the meaning of your life. You are searching for the greater pattern of your own life, which indicates why the wounded healer is the archetype of the Self...”

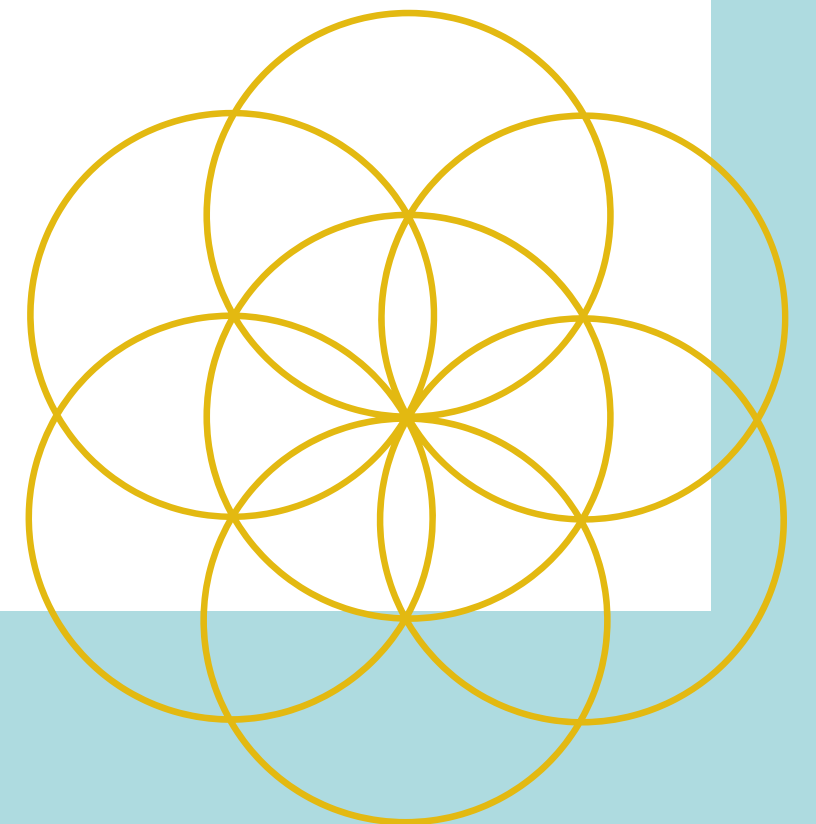

The Problem of the Puer Aeternus, Marie-Louise von Franz

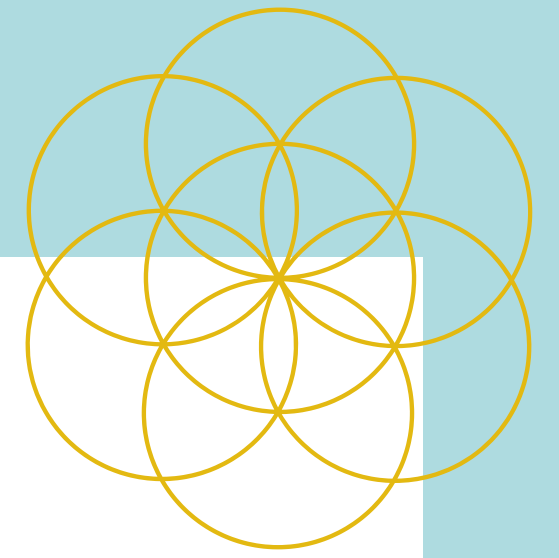

**“Chiron is about the wounds that
make us wise.”**

Howard Sasportas

*“Not only have the external relationships in the human world changed since the 1960s toward an increasing awareness of being **connected with the environment** in space and time, but so have the **internal relationships** of man with himself. The keen occupation with the phenomenon of **human consciousness** per se, the rising interest in a “humanistic” (that is, a **non-reductionist**) psychology, the techniques of a “holistic” medicine partly imported from other cultures—for example, acupuncture—the interest in **non-dualistic** Far-Eastern philosophies and exercises such as meditation and yoga, all this is but another important aspect of the metafluctuation which touched a large part of mankind at the beginning of the last third of this century.”*

Erich Jantsch, *The Self-organizing Universe*, 1980
